

## Tune-Up Analysis: Eliminate blind spots!

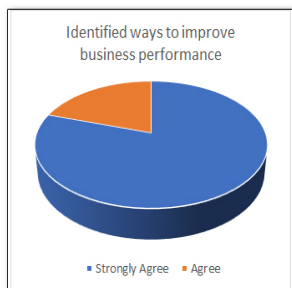

How effectively does your team use the TALONes system? This exciting new service includes a review of key areas in your dealership including Profitability and Customer Experience.

### Benefits of a Tune-Up:

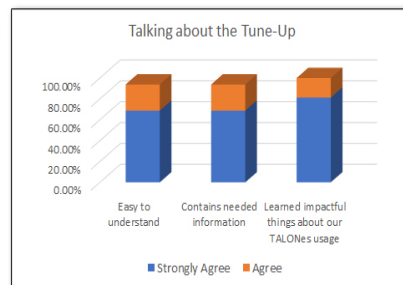

- **Comprehensive Tune-Up analysis** using over 80 data points to identify unused features and usage patterns that will have an unexpected impact on your bottom line.
- Easy to understand **graphical reports** with an overall dealership score and color coded inspection point results.
- **Personalized consultations** with a detailed walk through of results and best practice suggestions. Your management staff participates in an informative, detailed and highly collaborative discussion. Your consultation will eliminate cross-functional blind spots to improve operations and efficiency.
- Your team will **learn from TALONes experts** as they summarize identified points of opportunity for improvement.
- You will receive reference materials and comparative reports to **measure progress over 180 days**.

## What are dealers saying about Tune-Ups?

*"I would recommend all dealerships participate in this program at least once a year. I like the grading of areas that needed focus. This eliminates waste and allowed for a very productive meeting. Simply well done."*
